Deafness Cannot Be Cured

By loose applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

Something to Depend on.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and the case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hasty consumption. Having Dr. King's New Discovery in store and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from the first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

Fast Freight Runs.

The B. & O. S. W. has been making records on quick dispatch freight within the past week or two. Two trains, one weighing 732 and the other 734 tons, ran from Cincinnati to Parkersburg, 200 miles in 8 hours and 3 minutes and 8 hours and 4 minutes respectively. The run from St. Louis to Cincinnati, 340 miles, was made in 16 hours. Considering that some of the grades exceeded one per cent, the performance ranks with the best on record and demonstrates that the track and motive power of the B. & O. S. W. must be in good condition.

Seymour REPUBLICAN.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as in those of greater magnitude.

Electric Eyes.

The latest adjunct that science gives to the surgical operator is an electric eye. Strictly speaking, it is not an eye at all, but rather a sort of searchlight, which is used to aid the human eye in delicate surgical operations.

Often times surgeons are handicapped in their work by the fact that they cannot see distinctly the parts upon which they must operate. The formation of the human body is such that in many instances no light can be put directly upon the particular part of the human anatomy that is to be operated upon. The eye can see to the extent of human capability, but in intricate operations, however strong the light in the operating theater may be, the rays lack that penetration and power of concentration so necessary to delicate surgical operations.

Professor Charles E. Quimby, of Bellevue hospital, New York, has patented this new aid to surgery. From an ordinary electric light wire a connection is made with this device, which fits the face much in the manner of a pair of spectacles. The appliance in itself consists of two small incandescent lamps, which are fitted one above and the other below the eye of the operator. They are so adjusted that the rays focus at a point sufficiently near the ordinary point of vision to throw all the power of the electric rays upon the point desired.

It is practically a portable searchlight adapted to the operating theater. The lamps are in the form of an annular glass globe, with an illuminating conductor. An insulated backing, consisting of a metal leather lined band, which passes around the head, prevents the heat from affecting the wearer, and at the same time holds the light in position and prevents any possible effect that otherwise the electricity might have upon the wearer. The lights more nearly resemble long glass tubes than anything else. Within these tubes are placed the lamps, which can be adjusted to any desired angle. When a direct downward ray is desired, a small reflector is fixed above the light and the rays thrown in the desired direction.—San Francisco Examiner.

Man's Most Vulgar Habit.

"If men were compelled to wear skirts for a period, I think they would insist more than they now do that their fellow men should stop the nasty habit of spitting in public," writes Edward W. Bok in The Ladies' Home Journal. "There is no practice of man which is more distressing to women than this disgusting habit. Women constantly complain of it, especially in our larger cities, where sometimes the sidewalks are scarcely fit for them to walk upon. They revolt at the practice, and they are right in so doing, yet year in and year out the habit not only continues but increases, and the protection of cleanliness, to which every woman walking upon our streets has a perfect right, is denied her."

Sunday Excursions.

It is stated that two or three Sundays more will wind up the Sunday excursion business on as large a scale as has prevailed for several Sundays past, and it is questionable, says a railway president, if this business is carried on to so great an extent another year as during the summer of 1897. President Ingalls of the Big Four, and Vice President McCrea, of the Pennsylvania lines, are not disposed to look favorably on Sunday excursion business, and the matter of its being profitable to the roads is to be thoroughly investigated. The threat of some of the church going people to bring the matter before the courts has called attention to the matter, the Sunday observers claiming it is a discrimination which, under the interstate-commerce act, is illegal. Some of the roads have been selling this class of tickets good going on Saturday and returning Monday, and this has caused more or less opposition to the running of Sunday excursions.—Ex.

THEIR HONEYMOON.

CAME PRETTY NEAR STARVING DURING ITS FIRST WEEK.

A Diffident Bridal Couple's Experience in a New York Hotel—The Carte de Jour Was Too Much For Them, and Hunger Drove Them to "Light Housekeeping."

Starving amid plenty is a hard fate, yet such was the case of a diffident bridal couple that staid for a week at the Hotel Nederland recently. They came up from the south, and the period of reconstruction did not seem to have left a mark upon their open and genial characters. He was rawboned and athletic, and she was one of those typical southern girls who speak in the languorous dialect of Dixie Land when she does speak, but carries on conversation mainly by the use of her eyes. The couple were well supplied with money and manifested a desire to have a good time, but showed a woeful lack of knowledge of the details of a great city. To the manager of the house the young bridegroom confided the information that his family had once been wealthy, but, like many others in the south, had been drained by the war. The girl also came of an old plantation family that had been left penniless by the war, and all either could boast of was a long line of fine ancestry, health and good looks. By dint of hard work and extreme economy the bridegroom had saved a few hundred dollars, and he intended to have a honeymoon that would be worthy of some memory.

The couple came to the hotel about noon and passed most of the afternoon in looking over the house and admiring the furnishings. When it began to grow dark, the young husband seemed to get uneasy. He wandered around the corridors of the hotel and seemed to be at a loss for something. Finally his feelings mastered him, and he approached the clerk and asked: "Ah, say, can you tell me when the supper bell rings? Am getting sort of hungry."

The clerk was amused, but he explained to the southerner the mysteries of living upon the European plan. When the bridegroom learned that the \$4 a day he was paying for his room and his wife, he whistled softly and remarked: "You all must make a heap of money chawing like that fo' rooms. Well, we uns are going to have a good time, and I suppose we all might as well go in and get something or other to eat."

He walked off and went up to his room to get his wife. He manifested a peculiar liking for the elevator and insisted on riding in it at every occasion. He found his wife as hungry as himself, and under the tow of a bellboy made his way to the dining room. Previous to entering this room his honeymoon had been a dream of joy, without a cloud to hide the sunshine. When he seated himself at the table the first "riff in the lute" came. A white aproned, obsequious waiter laid a carte de jour in front of the southern visitors and then hurried off to get glasses, plates and so on. A consultation at once took place. The card was printed in French, and after studying it from every side and reading it backward and forward the husband gave it up and passed it over ruefully to his wife. She looked in hopeless bewilderment at the card, and it was evident that she was at sea also, so far as French was concerned. They gazed hopelessly into each other's eyes and then at the card, and then back into each other's eyes again. He was game to the last, and suddenly a thought struck him. He called the waiter to him and said softly: "Waitah, is this all you uns have for suppah?"

The waiter replied that everything that had been prepared for the meal was on the card. The husband sighed and the wife looked glum. Then the young fellow said quietly: "Well, I guess we all don't want any of what you uns have got fixed. We uns will get something or other to eat later." Then he arose and went up to his room, his wife following obediently. For two days the young couple haunted the house. They did not seem to think that there was any more of New York than that which lay immediately within the range of vision from the hotel. They eyed the dining room longingly, but did not enter it. One day one of the maids came to the manager of the hotel and told him that the persons in the room occupied by this young couple were littering the place with cooking. The manager, who felt that something was wrong with the young fellow, called him aside and told him kindly that the management did not allow cooking in the rooms, as it interfered with the regime of the house and damaged the furniture. The young man blurted out: "Ah, don't see what we all is to do, then. Ah, can't get anything to eat in the dining room, and we uns have got to eat."

When pressed for an explanation, he explained the trouble about the bill of fare, and confided to the manager that he and his wife had finally grown so hungry that he slipped over to a corner store and got some vegetables and other eatables and a frying pan. The couple had used the gas jet for a stove, and managed to get along pretty well, although he admitted that it was a rather poor makeshift. The manager explained the intricacies of a French carte de jour to him, and also gave him a broader idea of the city's resources. The young fellow was deeply grateful, and for the remaining few days that the couple were in the city they entered the dining room with the air of persons who knew all about it, and ordered the waiter to get them something to eat. They branched out over the city also, and paid visits to various points of interest. As he was leaving the hotel, the husband grasped the manager by the hand and said feelingly: "Ah, m'bliged to you, sah. A person who don't ask questions should starve, and we uns came pretty near it."—New York Tribune.

LAFAYETTE'S FAMOUS VISIT.

There Was Great Excitement Over His Trip to the United States.

Jean Fraley Hallowell, who writes in The Ladies' Home Journal of "When Lafayette Rode Into Philadelphia," says that "it is difficult to understand at this late day what a furor of excitement passed over this country when Lafayette arrived once more in America. The visit is a historic event to be remembered while memory endures. During President Monroe's second administration the United States extended its invitation to Lafayette. He arrived at Staten Island on Aug. 16 (Sunday), 1824, accompanied by his son, George Washington Lafayette, and also by his son-in-law. A formal reception took place on the following day, the first fruits of the most abundant harvest of welcome which Lafayette was to receive during his year of travel through the United States.

Lafayette was 67 years old when he visited America as the nation's guest and carried his years lightly. His head was shaped like that of Burns. He had a high forehead, long, aquiline nose and a rather thin face. His hair was sandy and quite plentiful. His eyes were dark gray, restless and twinkling. His eyebrows light in color, but heavily marked. His mouth was firm, and his lips smiled courteously at the holiday crowd assembled to do him honor. This general was not very tall, but well made. His face was distinctly pleasant, and his expression was an odd mixture of kindness, decision and gay good humor. His costume was a swallow-tailed coat and trousers of dark brown, with a great display of white waistcoat and neckcloth. A bunch of seals hung from a broad black ribbon at his waist. Over his shoulders hung a cloth riding cloak, greenish blue in color and lined with red.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, and settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

McKinley Renews Old Friendships at Twenty-Third Ohio Reunion.

DISPUTED ALASKA BOUNDARY.

Klondike Gold Fields on Canadian Soil. Postmaster General Gathering Information Regarding Postal Savings Banks. Domestic Exports For July—Lee Denies That Correspondent's Deskroom Story.

FREMONT, O., Sept. 3.—This morning President McKinley started on his special train for Columbus going via Bellevue and the Sandusky short line to attend the state fair there. He was accompanied by Mrs. McKinley, Senator Hanna, Secretary and Mrs. Alger, Colonel and Mrs. M. T. Herrick of Cleveland, ex-Governor Charles Foster of Fostoria and those from Columbus who have been visiting the Hayes family during the Hayes wedding and the reunion exercises.

Yesterday was a day of pleasure for President McKinley. A breakfast party to invited representative guests of the city was given at the Hayes homestead in the president's honor. The rest of the day was spent in renewing old friendship with his comrades of Twenty-third Ohio and taking part in the reunion exercises. The president was in a particularly happy mood and took great delight in chatting with the members of his old regiment and recalling old reminiscences. He is very fond of these boys in blue and takes no pains to conceal it. They all seem to know it and reciprocate the feeling most heartily. He greets them on the same footing apparently and is just as glad to mingle with them as during the days when he was only a citizen. His speech yesterday seemed to please them greatly. The president is in the pink of health. He says he greatly enjoyed the visit at Fremont and is delighted with the city and its people. Last night a number of guests from out of town called on him at the Hayes mansion, including a number of Fremont people, to pay their respects and bid him goodbye.

ILLINOIS CIVIL RIGHTS BILL.

First Prosecution Under the New Law Dismissed at Cairo.

CAIRO, Ill., Sept. 3.—The first suit for violation of the civil rights bill, passed at the last session of the state legislature, was tried before Justice Thomas C. Graves, Cairo's colored justice of the peace. George V. Lane, the negro county commissioner of Pulaski county, was the plaintiff. Some time ago he entered the saloon of A. Botto and called for a drink. He was told it would cost him \$1, and he objected to paying the bill. The suit followed. Justice Graves dismissed the case, as not worthy of the notice of the court. It is likely that another attempt will be made to test the law.

Tramps Driven Out.
ARCOLA, Ill., Sept. 3.—This city is the scene of wild excitement. Of late tramps who are unwilling to work have boldly plundered gardens. Sheriff Bagley came down from Tascosa last night and with the regular police force and eight deputies, made a raid on the tramps and over 400 of them were driven out of the city.

FEARFUL INDICTMENT

Husband of Mrs. Nack Charges Her With Murdering Infants.

PRESERVED THEM IN SPIRITS.

Now In Jail With Martin Thorn Charged With Murdering William Guldensuppe.

Carried on Her Nefarious Business For Eight or Ten Years—Undertakers Implicated—Other Crimes.

NEW YORK, Sept. 3.—District Attorney Olcott has made public a remarkable statement made by Herman Nack, the husband of Mrs. Augusta Nack, who, with Martin Thorn, is charged with the murder of William Guldensuppe.

In the statement Nack says that his wife has been killing infants for a number of years. He gives the whole career of himself and his wife during their married life from 1889 to the time he left her in October, 1896.

Nack states that his wife made a living through illegal operations involving the murder of children. He said that she was a so-called midwife, but that she never had a diploma.

At one time, Nack states, there were as many as six dead infants preserved in spirits in bottles in his room in their house. He also states that she murdered from two to three children every year for a period of from eight to 10 years.

Nack also alleges that his wife was assisted in all the details by a number of physicians. He also drags in Undertakers' names, charging all of them, both physicians and undertakers, with complicity with his wife. He says that they aided her in making way with the bodies of the children.

The statement of Nack was got from him through the persistent efforts of Assistant District Attorney Mitchell.

MRS. LUTGERT'S DISAPPEARANCE.

Husband Did Not Report Her Absence Because She Was Insane.

CHICAGO, Sept. 3.—The indifference of Lutgert after his wife had disappeared was the principal fact brought out against him yesterday.

It was shown by the testimony of Police Captain Hermann Schuetler that Lutgert did not show any concern regarding his wife and never took the trouble to ask the police whether they had found any trace of her or not.

When the police first became aware of the disappearance of Mrs. Lutgert through her brother they asked Lutgert what theory he had regarding her disappearance and he said that in his opinion she had become insane and had wandered away from home, and he had not reported her going away because, he said, it was a disgrace to have an insane wife and he did not want people to know anything about it.

One of Captain Taylor's Murderers.

LITTLE ROCK, Ark., Sept. 3.—John Church, a noted moonshiner, was captured in the mountains yesterday. He made a full confession and promised to aid in the capture of others implicated in the murder of Captain Taylor and party.

The posse proceeded with Church under a heavy guard after warning him that any attempt at treachery would be paid with his life. The posse are now thought to be in Newton county.

Connected With Spanish Anarchists.

CITY OF MEXICO, Sept. 3.—Jose Keutze, the French anarchist, who has been arrested makes a full confession of his connection with anarchists in Spain, but it appears that he was not connected with the Barcelona bombthrowing. He appears to be a mild sort of person and anxious to be allowed to gain an honest living.

Is Considering the Request.

PROVIDENCE, Sept. 3.—President Andrews said yesterday that he had taken under consideration the request of the Brown University corporation that he withdraw his resignation.

Thousands of Women Go Down to Death Every Year Through Their Own Ignorance and Neglect.

Every woman should know something of the physiology of her womanly self. Every woman should appreciate the importance of the health and strength of the delicate organs that constitute her womanhood. The woman who neglects her health in this respect is sure to be a continual sufferer and is in constant danger of an early grave. To such a woman womanhood is a torture and motherhood a menace.

Dr. Pierce's Favorite Prescription acts directly and only on the organs that make womanhood and motherhood possible. It invigorates them and makes them healthy. It prepares a woman for an almost painless maternity. It does away with the dangers of the newcomer in the family. Over 20,000 women have testified to its wonderful virtues. All good druggists sell it. There is nothing "just as good."

"If it had not been for your medicine and your advice," writes Mrs. L. P. Thomas, of America, Pike Co., Ark., "I would not be in my grave or in an insane asylum. Fourteen years ago, when my second child was born, I came very near losing my mind. My head would hurt so bad I could hardly live. I could not lie down and raise up without great pain. My life was a misery. I had lost all hope of being cured, but I took your 'Favorite Prescription,' according to directions. I used one bottle of the Pleasant Pellets, two of the 'Golden Medical Discovery,' and six of 'Favorite Prescription.' In a little over one year after I began your medicine I gave birth to a child. Since then I have a healthy baby ten months old. He weighed eleven pounds at his birth. I have been better in health since the birth of this child than I had been for years before. Before using your medicine my weight was only 100 pounds and thirty-five pounds, and now I weigh one hundred and sixty-five pounds."

Dr. Pierce's Pleasant Pellets are a safe, sure, swift and permanent cure for constipation. They never gripe. One is a gentle laxative, and two a mild cathartic. Druggists sell them.

GREENSBURG BANK.

First National Forced to Suspend Because of a Run.

GREENSBURG, Ind., Sept. 3.—The First National bank of this city closed its doors yesterday. It is the oldest and has always been considered the safest institution in the city. It is claimed the institution was forced to close on account of a run caused by the report that E. R. Forsyth's private affairs were in a precarious condition. He is one of the heaviest stockholders and acknowledges he was about to make an assignment. It is impossible as yet to tell the exact condition of the bank, but it is thought it will pay dollar for dollar. O. M. Packard, bank examiner, has taken charge by order of Controller Reicks.

ILLINOIS CASHIER ABSCONDS.

The Bank of Durand Fails to Open Its Doors—Private Institution.

ROCKFORD, Ill., Sept. 3.—The Bank of Durand failed to open its doors yesterday and Charles A. Norton, cashier and general manager of the institution has disappeared. He is said to have forged the names of prominent farmers to 27 notes for various amounts. The bank had deposits of about \$30,000. Norton is 36 years of age and was prominent in church and business circles. The bank, a private one, has been running six years and was about to be reorganized as a state bank. Norton wore three overcoats with pockets filled and carried a satchel when he drove away.

Alleged Defaulter Heard From.

LAWRENCEBURG, Ky., Sept. 3.—A prominent citizen here has received a letter from Phoenix, A. T., which says A. T. Herd, the alleged defaulter to the National Building and Loan association of Lexington, while his attorney has arrived there and has a big roll of greenbacks which he is swelling with. It was believed he had gone to Mexico.

NO AGREEMENT YET.

Mine Workers Executive Board Hold a Stormy Session.

COLUMBUS, O., Sept. 3.—The national executive board of the United Mine Workers adjourned last night until today without reaching a conclusion on the proposition of the Pittsburgh operators and it is impossible to predict what will be done. The board had a stormy session and there appears to be a very decided difference of opinion among the members as to the best course to pursue.

The proposition of the Pittsburgh operators applies specifically to that district, but in effect all other districts are concerned. The proposition is that the Pittsburgh miners shall return to work at a 64-cent rate pending arbitration, the conditions of the arbitration to be that the rate for mining shall not be fixed at more than 60 cents a ton nor less than 50 cents. Under such conditions the miners maintain that they would probably not secure through arbitration more than 65 cents. None of the members of the board will discuss the situation and the proceedings of their meeting have been guarded with the utmost secrecy.

FRENCH BECOMING RESOLUTE.

M. Hanotaux to Make a Speech That Will Reverser Throughout the Country.

PARIS, Sept. 1.—The attitude of the French press and public toward Germany is distinctly more resolute than it was before the France-Russian alliance was announced.

Upon the reassembling of the chamber of deputies M. Hanotaux, the minister of foreign affairs, it is said, will make an important speech on the subject of the alliance, which will be in the nature of a manifesto and will reiterate throughout the country, and that the chamber will immediately adjourn without transacting any further business.

It is reported that the government intends to dissolve the chamber and appeal to the country, in the assurance that the popularity of the Meline cabinet is so great that the whole Radical opposition will be swept away.

"I DID IT, DIDN'T I?"

William Orten Jumps From the Brooklyn Bridge.

NEW YORK, Sept. 3.—William Orten jumped from the Brooklyn bridge late yesterday and now lies in a critical condition at the Marine hospital. He rode on a truck going to Brooklyn and when the truck was near the center of the bridge Orten got off and quickly climbed upon the rail and jumped out into space. He turned over several times in his descent and struck the water on his right side. When he came to the surface the tug Gratitude fished him out. Orten was in an exhausted condition, and after a while said: "I did it, didn't I?" Then he sank into a state of unconsciousness.

THROUGH THE HEART.

Bottle of Whisky Causes a Fatal Quarrel Between Brothers.

MURRAY, Ky., Sept. 3.—Ballard Haynes stabbed his brother, Dave Haynes, to death near here. They were employed on the Nashville, Chattanooga and St. Louis railroad as section men. The tragedy had its origin over a bottle of whisky which Dave Haynes had stolen from his brother.

Both were intoxicated, and when Ballard accused his brother of the theft his words passed, and the former drew his knife and stabbed the latter in the heart. The victim lived only a few minutes. The murderer at once made his escape into the woods.

STOLE A STREETCAR.

Workmen Board a Vacant Electric Car and Stole It Home.

BRIDGEPORT, O., Sept. 3.—W. W. Robinson and William Schuler, arrested here charged with the theft of a streetcar. The couple, together with a dozen companions, going home from work at the Crystal glass works, found the car standing in front of the power station. Boarding it they turned off the power and were out of sight before the loss was discovered. The engine at the power station was stopped to prevent accidents. The car was found a mile from the station. A dozen arrests will be made.

Minor League Mothers.

HARTSVILLE, Ky., Sept. 3.—Mrs.

Hanna Graham, a farmer's wife, saw

two women lay their babies in a fence

corner on the roadside and leave them.

After the women disappeared she went

and got the infants and notified the

county judge, who sent them to the

poorhouse. The unnatural mothers

have been arrested.

I'll Dead at Her Daughter's Feet.

KENTON, O., Sept. 3.—Mrs. William

Campbell, aged 70, while preparing to

retire for the night, fell dead at her

daughter's feet. Heart disease was the

cause. Her husband is at a hospital in

Columbus where he underwent a critical

surgical operation recently and is expected to die.

DANGER! Few appreciate the Danger to which the Expectant Mother is exposed and the foreboding with which she looks forward to the hour of woman's severest trial.

algia of the Heart

Vanquished by Dr. Miles' Remedies.

MR. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven. Mr. J. B. Sidley writes Oct. 25, 1905: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she lay at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' New Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physician. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first, to give benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. MILES MEDICAL CO., Elkhart, Ind.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Mr. Ferris is well preserved and don't look to be over forty-five.

Something to Depend on.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and the case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hasty consumption. Having Dr. King's New Discovery in store and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from the first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

Fast Freight Runs.

The B. & O. S. W. has been making records on quick dispatch freight within the past week or two. Two trains, one weighing 732 and the other 734 tons, ran from Cincinnati to Parkersburg, 200 miles in 8 hours and 3 minutes and 8 hours and 4 minutes respectively. The run from St. Louis to Cincinnati, 310 miles, was made in 16 hours. Considering that some of the grades exceeded one per cent, the performance ranks with the best on record and demonstrates that the track and motive power of the B. & O. S. W. must be in good condition.

John R. McLean's
Great Newspaper.
Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public and its worth and merit.
The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.
When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.
The very liberal support given the Enquirer by the public at large, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as of greater magnitude.

Electric Eyes.
The latest adjunct that science gives to the surgical operator is an electric eye. Strictly speaking, it is not an eye at all, but rather a sort of searchlight, which is used to aid the human eye in delicate surgical operations.
Often times surgeons are handicapped in their work by the fact that they cannot see distinctly the parts upon which they must operate. The formation of the human body is such that in many instances no light can be put directly upon the particular part of the human anatomy that is to be operated upon. The eye can see to the extent of human capability, but in intricate operations, however strong the light in the operating theater may be, the rays lack that penetration and power of concentration so necessary to delicate surgical operations.
Professor Charles E. Quimby, of Bellevue hospital, New York, has patented this new aid to surgery. From an ordinary electric light wire a connection is made with this device, which fits the face much in the manner of a pair of spectacles. The appliance in itself consists of two small incandescent lamps, which are fitted one above and the other below the eye of the operator. They are so adjusted that the rays focus at a point sufficiently near the ordinary point of vision to throw all the power of the electric rays upon the point desired.
It is practically a portable searchlight adapted to the operating theater. The lamps are in the form of an annular glass globe, with an illuminating conductor. An insulated backing, consisting of a metal leather-lined band, which passes around the head, prevents the heat from affecting the wearer, and at the same time holds the light in position and prevents any possible effect that otherwise the electricity might have upon the wearer. The lights more nearly resemble long glass tubes than anything else. Within these tubes are placed the lamps, which can be adjusted to any desired angle. When a direct downward ray is desired, a small reflector is fixed above the light and the rays thrown in the desired direction.—San Francisco Examiner.
Man's Most Vulgar Habit.
"If men were compelled to wear skirts for a period, I think they would insist more than they now do that their fellow men should stop the nasty habit of spitting in public," writes Edward W. Bok in The Ladies' Home Journal. "There is no practice of man which is more distressing to women than this disgusting habit. Women constantly complain of it, especially in our larger cities, where sometimes the sidewalks are scarcely fit for them to walk upon. They revolt at the practice, and they are right in so doing, yet year in and year out the habit not only continues but increases, and the protection of cleanliness, to which every woman walking upon our streets has a perfect right, is denied her."

Sunday Excursions.
It is stated that two or three Sundays more will wind up the Sunday excursion business on as large a scale as has prevailed for several Sundays past, and it is questionable, says a railway president, if this business is carried on to so great an extent another year as during the summer of 1897. President Ingalls of the Big Four, and Vice President McCrea, of the Pennsylvania lines, are not disposed to look favorably on Sunday excursion business, and the matter of its being profitable to the roads is to be thoroughly investigated. The threat of some of the church going people to bring the matter before the courts has called attention to the matter, the Sunday observers claiming it is a discrimination which, under the interstate-commerce act, is illegal. Some of the roads have been selling this class of tickets good going on Saturday and returning Monday, and this has caused more or less opposition to the running of Sunday excursions.—Ex.

THEIR HONEYMOON.
CAME PRETTY NEAR STARVING DURING ITS FIRST WEEK.
A Diffident Bridal Couple's Experience In a New York Hotel—The Carte de Jour Was Too Much For Them, and Hunger Drove Them to "Light Housekeeping."
Starving amid plenty is a hard fate, yet such was the case of a diffident bridal couple that staid for a week at the Hotel Netherland recently. They came up from the south, and the period of reconstruction did not seem to have left a mark upon their open and genial characters. He was rawboned and athletic, and she was one of those typical southern girls who speak in the languorous dialect of Dixie Land when she does speak, but carries on conversation mainly by the use of her eyes. The couple were well supplied with money and manifested a desire to have a good time, but showed a woeful lack of knowledge of the details of a great city. To the manager of the house the young bridegroom confided the information that his family had once been wealthy, but, like many others in the south, had been drained by the war. The girl also came of an old plantation family that had been left penniless by the war, and all either could boast of was a long line of fine ancestry, health and good looks. By dint of hard work and extreme economy the bridegroom had saved a few hundred dollars, and he intended to have a honeymoon that would be worthy of remembrance.
The couple came to the hotel about noon and passed most of the afternoon in looking over the house and admiring the furnishings. When it began to grow dark, the young husband seemed to get uneasy. He wandered around to the corridors of the hotel and seemed to be at a loss for something. Finally his feelings mastered him, and he approached the clerk and asked: "Ah, say, can you tell me when the supper bell rings? Am getting sort of hungry."
The clerk was amused, but he explained to the southerner the mysteries of living upon the European plan. When the bridegroom learned that the \$1 a day he was paying for his room did not include meals for himself and his wife, he whistled softly and remarked: "You all must make a heap of money chargin' like that for rooms. Well, we uns are going to have a good time, and I suppose we all might as well go in and get something or other to eat."
He walked off and went up to his room to get his wife. He manifested a peculiar liking for the elevator and insisted on riding in it at every occasion. He found his wife as hungry as himself, and under the tow of a bellboy made his way to the dining room. Previous to entering this room his honeymoon had been a dream of joy, without a cloud to hide the sunshine. When he seated himself at the table the first "riff in the lute" came. A white aproned, obsequious waiter laid a carte de jour in front of the southern visitors and then hurried off to get glasses, plates and so on. A consultation at once took place. The card was printed in French, and after studying it from every side and reading it backward and forward the husband gave it up and passed it over ruefully to his wife. She looked in hopeless bewilderment at the card, and it was evident that she was at sea also, so far as French was concerned. They gazed hopelessly into each other's eyes and then at the card, and then back into each other's eyes again. He was game to the last, and suddenly a thought struck him. He called the waiter to him and said softly, "Waitah, is this all you uns have for supper?"
The waiter replied that everything that had been prepared for the meal was on the card. The husband sighed and his wife looked grim. Then the young fellow said quietly: "Well, I guess we all don't want any of what you uns have got fixed. We uns will get something or other to eat later." Then he arose and went up to his room, his wife following obediently. For two days the young couple haunted the house. They did not seem to think that there was any more of New York than that which lay immediately within the range of vision from the hotel. They eyed the dining room longingly, but did not enter it. One day one of the maids came to the manager of the hotel and told him that the persons in the room occupied by this young couple were littering the place with cooking. The manager, who felt that something was wrong with the young fellow, called him aside and told him kindly that the management did not allow cooking in the rooms, as it interfered with the regime of the house and damaged the furniture. The young man blurted out: "Ah! don't see what we all is to do, then. Ah! can't get anything to eat in the dining room, and we uns has got to eat."
When pressed for an explanation, he explained the trouble about the bill of fare, and confided to the manager that he and his wife had finally grown so hungry that he slipped over to a corner store and got some vegetables and other eatables and a frying pan. The couple had used the gas jet for a stove, and managed to get along pretty well, although he admitted that it was a rather poor makeshift. The manager explained the intricacies of a French carte de jour to him, and also gave him a broader idea of the city's resources. The young fellow was deeply grateful, and for the remaining few days that the couple were in the city they entered the dining room with the air of persons who knew all about it, and ordered the waiter to get them something to eat. They branched out over the city also, and paid visits to various points of interest. As he was leaving the hotel, the husband grasped the manager by the hand and said feelingly: "Ah! m'bliged to you, sah. A person who don't ask questions should starve, and we uns came pretty near it!"—New York Tribune.

LAFAYETTE'S FAMOUS VISIT.
There Was Great Excitement Over His Trip to the United States.
Jean Fraley Halkowell, who writes in The Ladies' Home Journal of "When Lafayette Rode Into Philadelphia," says that "it is difficult to understand at this late day what a furor of excitement passed over this country when Lafayette arrived once more in America. The visit is a historic event to be remembered while memory endures. During President Monroe's second administration the United States extended its invitation to Lafayette. He arrived at Staten Island on Aug. 15 (Sunday), 1824, accompanied by his son, George Washington Lafayette, and also by his son-in-law. A formal reception took place on the following day, the first fruits of the most abundant harvest of welcome which Lafayette was to receive during his year of travel through the United States.
"Lafayette was 67 years old when he visited America as the nation's guest and carried his years lightly. His head was shaped like that of Burns. He had a high forehead, long, aquiline nose and a rather thin face. His hair was sandy and quite plentiful. His eyes were dark gray, restless and twinkling, his eyebrows light in color, but heavily marked. His mouth was firm, and his lips smiled courteously at the holiday crowd assembled to do him honor. The general was not very tall, but well made. His face was distinctly pleasant, and his expression was an odd mixture of alertness, decision and gay good humor. His costume was a swallow-tailed coat and trousers of dark brown, with a great display of white waistcoat and neckcloth. A bunch of seals hung from a broad black ribbon at his waist. Over his shoulders hung a cloth riding cloak, greenish blue in color and lined with red."
ONE OF TWO WAYS.
The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.
CHIEF CAUSE.
Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.
